Federal Motor Carrier Safety Administration

Roadside Inspection

This module provides summarized data for five fiscal or calendar years including current year to date information on all roadside inspections conducted on motor carriers that transport property or passengers in interstate or intrastate commerce.

A roadside inspection is an examination of individual commercial motor vehicles and drivers by a Motor Carrier Safety Assistance Program (MCSAP) inspector to determine if they are in compliance with the Federal Motor Carrier Safety Regulations (FMCSRs) and/or Hazardous Materials Regulations (HMRs.) Serious violations result in the issuance of driver or vehicle OOS orders. These violations must be corrected before the affected driver or vehicle can return to service.

Summary of Roadside Inspections in Maryland

Roadside Inspection Activity (Maryland)	FY 2009		
	Fed	State	Total
Number of Inspections	445	106,655	107,100
I. Full	390	24,195	24,585
II. Walk-Around	14	53,258	53,272
III. Driver Only	18	23,434	23,452
